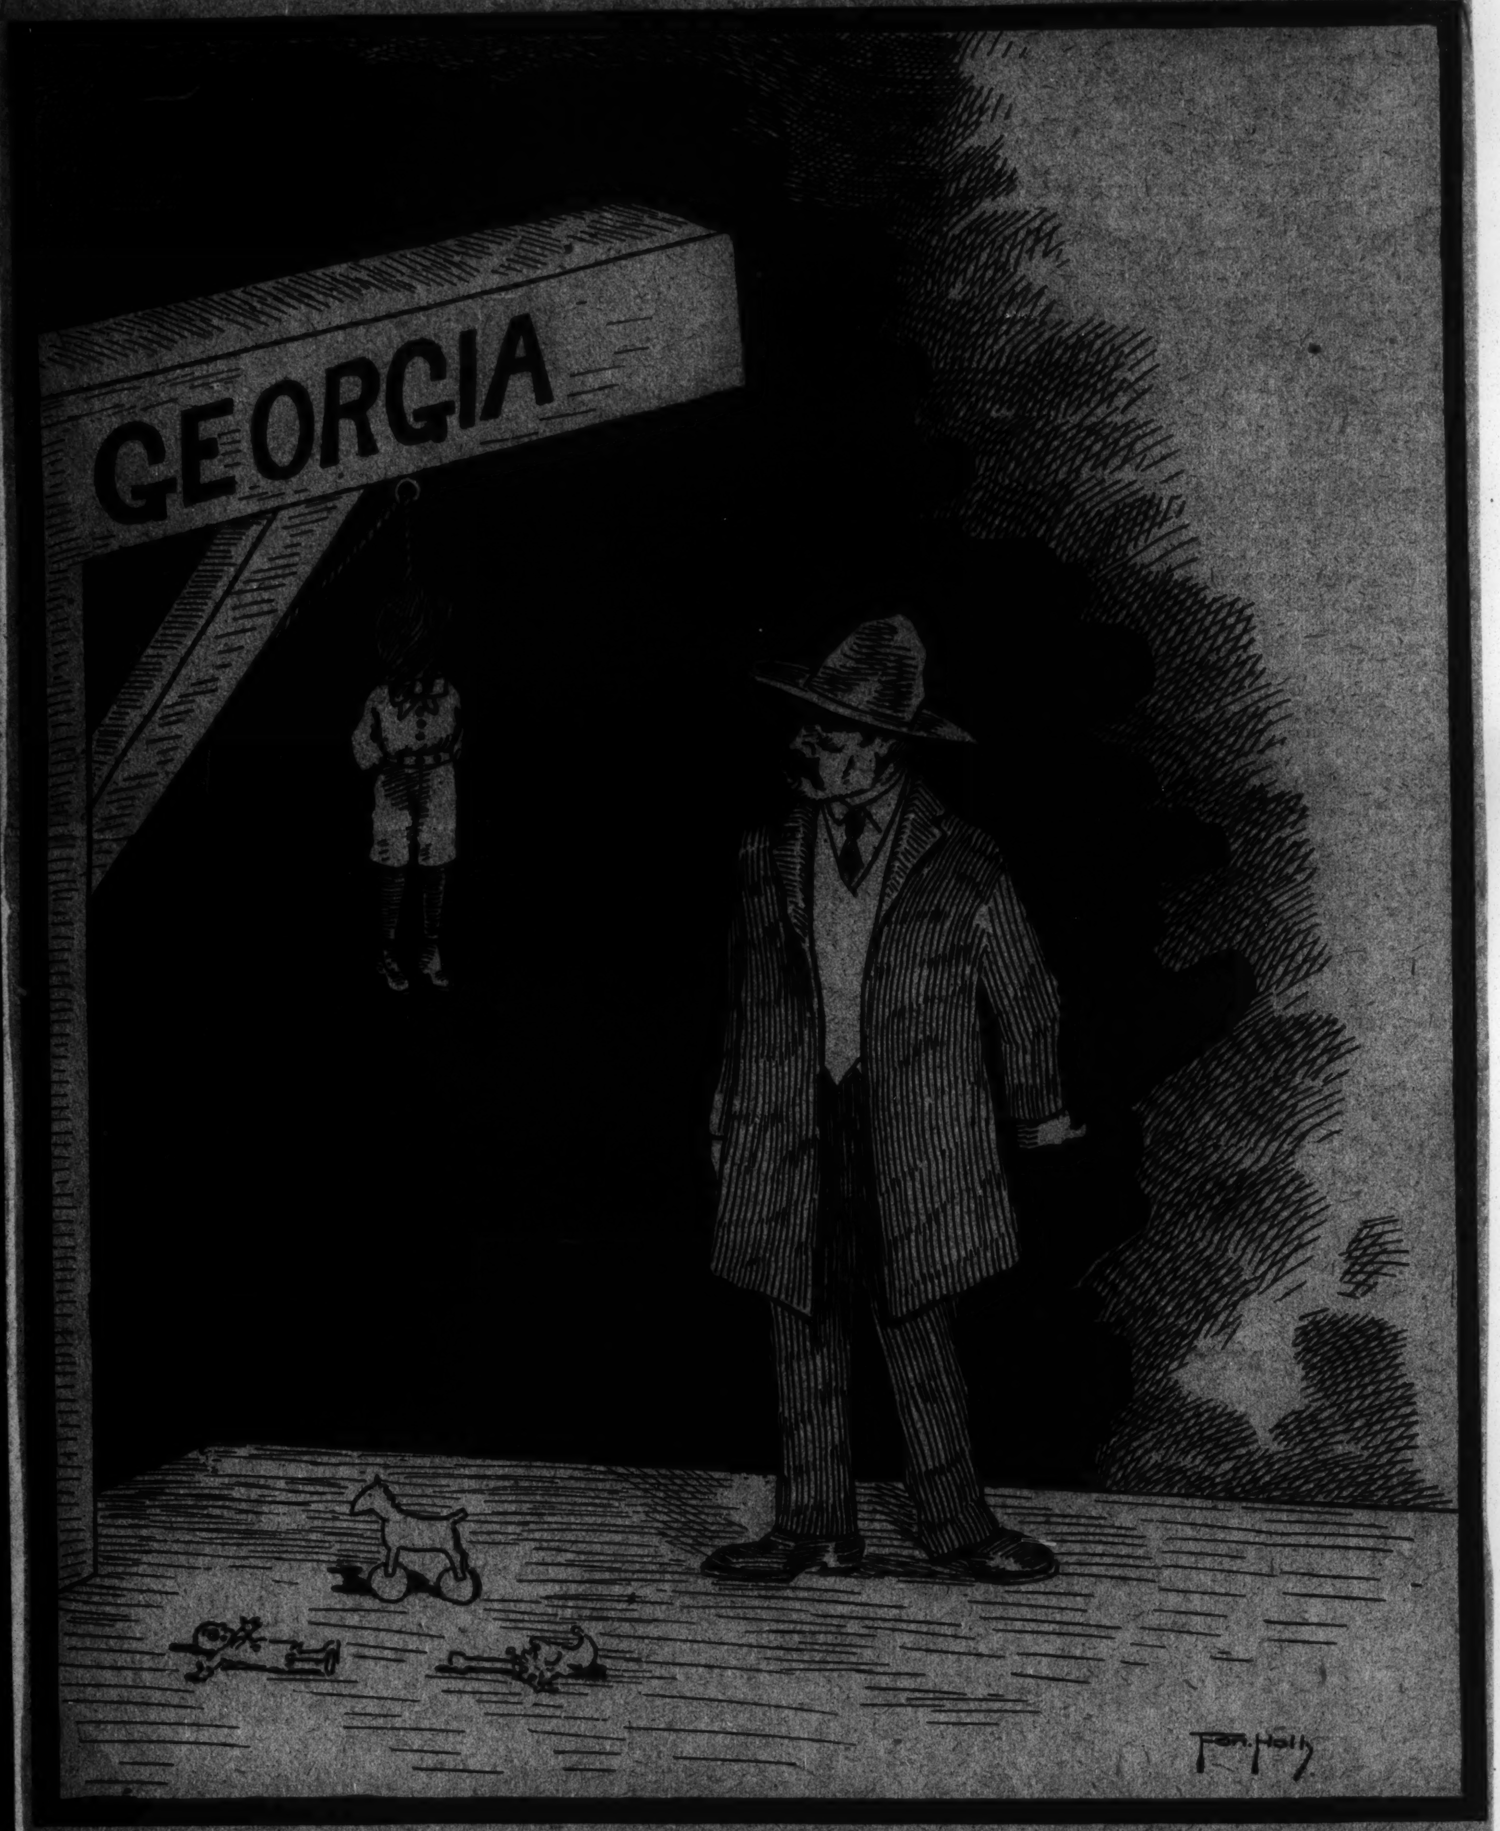
A FAIR TRIAL OF A CHILD IN GEORGIA?

10-2-15



This is what is done to your children in the grand old state of Georgia. Think! A boy, a child 12 years old, given a fair trial for rape of a little white girl. Georgia would not stain her hands with the blood of a child, so he got a fair trial. The Judge who passed judgment on this babe is certainly a peach.

A CAN OF BAD JUDGMENT

familiar sight in every neighborhood. The "Can Toter" is the champion of a cheap form of entertainment and is never found in orderly cafes and buffets where the contents of his Can can be had amid surroundings that are comfortable and pleasant and never result in the trouble and misery that often follow the "Can Toter."

The Chicago Defender 10/7/15

This cartoon, which is published by request, only recalls to mind a year ago when the Defender spoke out for Sunday ing of saloons, showing that we have fought all along for a clean city and clean street corners and for the arrest of any who would use profane language on the streets, especially in the presence of women and children. We are still on the line of uplift.

For three months past the streets of Huntersville, Barboursville and Lindenwood have been almost impassable, but the city council has seen fit to table all resolutions calling for improvements in the sections of the city named. The excuse given is that the city'y finances are low. Appropriations are tantly made, however, for improvements in the white sections of the city.

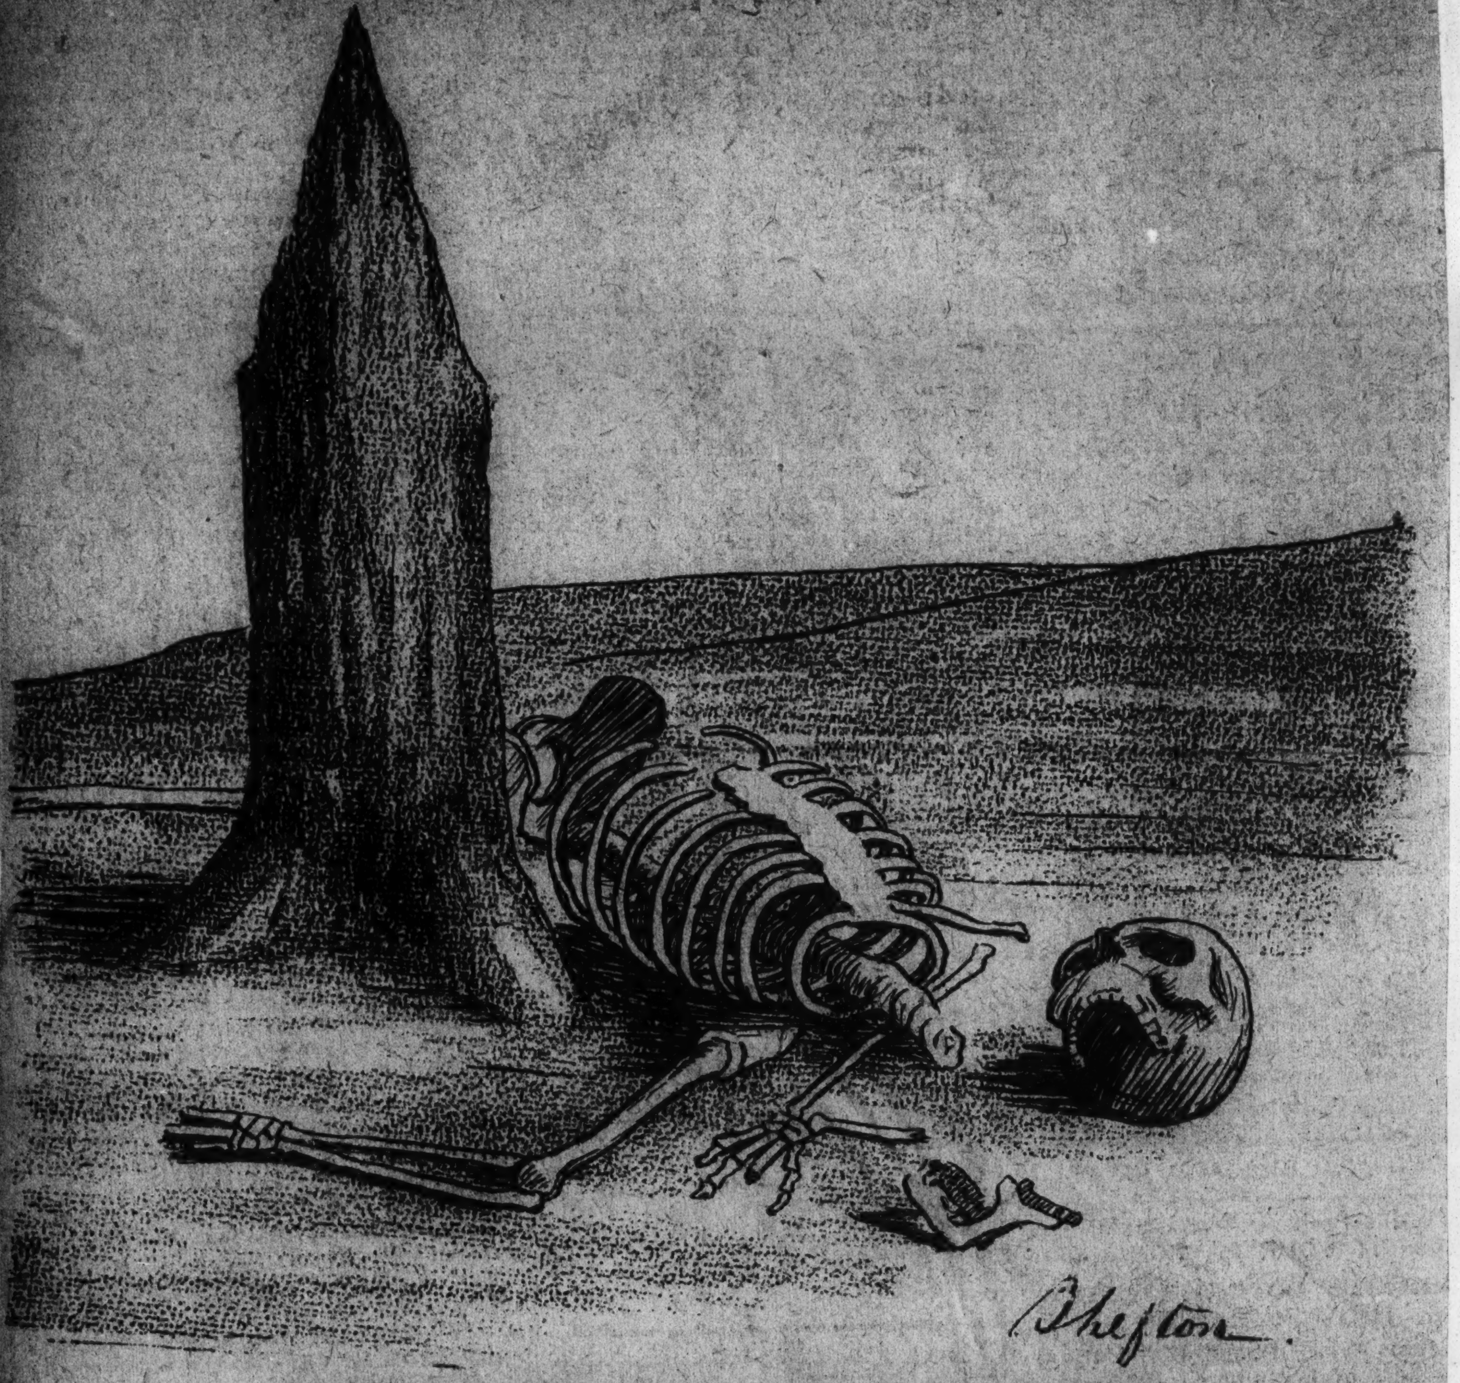
Picturesque (?) America

SEEN ANYWHERE SOUTH OF THE MASON AND DIXON LINE.



GOD IS NOT DEAD!

Shifton's Cartoon in the current issue of The News is the saddest, the most grewsome commentary on American civilization and Christianity I have recently seen. It is a mute indictment of its indurated hypocrisy, its sham pretensions to the possession of the feelings of humanity. As the putative champion of human rights and apostle of civic righteousness it appears to have forgotten its own hell-black record of savagery and barbarism in its pharisaical zeal to out Herod as the champion hypocrite of all the ages.

"Shifton's Cartoon in the current is- Stake," speaks like angel trumpet tongued to the conscience of American white men North and South, to warn them that they are piling up trouble, both for themselves, for their children and their children's children, and that for every drop of blood drawn by the rope, the shotgun or the lash, to paraphrase the words of Lincoln, "More drops of blood will be drawn by the sword." What goes up **must** come down! Shifton's Cartoon is worthy the widest circulation. It should be reproduced as a picture postal card and used by colored people in their correspondence with their white acquaintances, and on cards suitable for framing and sold at a nominal price. They should be sent abroad to the editors of foreign newspapers, and to private individuals, that they may see what kind of a biped the "superior white men of America, who is filling the air with the trumpet of his discontent" because of "German atrocities"—what a shameless, brutal, cowardly specimen of humanity civilized America produces in the light and blaze and glory of the twentieth century, who, with malice prepense, deliberately lynch our old men and helpless maidens for offenses for which white men and women would be tried by a jury of their peers. "God is not dead."

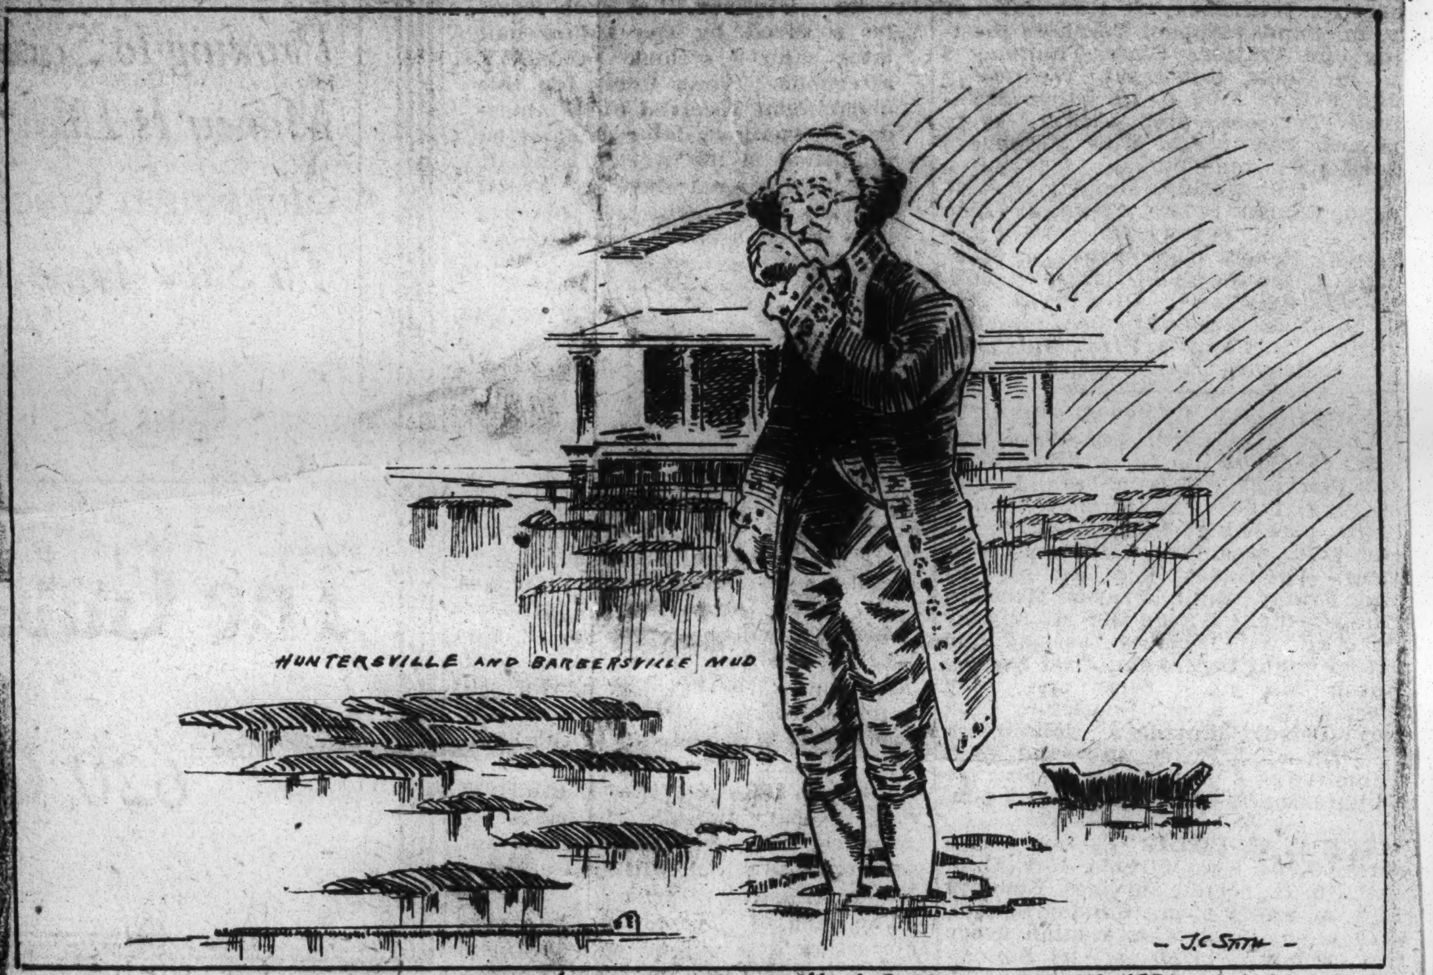
The Chicago Defender, 6/1/16.

Shall the American Republic continue to allow the open defiance of their laws and utter disregard for their citizens who have laid down their lives "that this country shall not perish from the earth"? Shall the American Republic be pointed at with scorn by the foreign powers as a barbarous nation? If our race is good enough to give you our votes, then as American citizens WE DEMAND PROTECTION from these murderers, even if the ENTIRE SOUTH MUST BE PLACED UNDER MARTIAL LAW. Why Mexico? Why bother about Germany or Japan? No civilized nation has disgraced itself with the above scenes in the past fifty years. "Let he that is unclean cast the first stone." Stop, Mr. Candidate, look, listen, THEN, for the sake of fourteen million anguished souls, ACT.

HOW BOUT THAT 27,000 DOLLARS -



HUNTERSVILLE AND BARBERSVILLE MUD
- J.C. SMITH -

FATHER NORFOLK - AWFUL! MUD! MUD!! MUD!!! I SIMPLY HAVE NO USE FOR THIS PART OF THE CITY.

The above cartoon indicates very clearly Norfolk's attitude toward the sections of the city inhabited by colored people. It also shows one of the results of segregation. If segregation only established a dividing line between the races with the view of grouping each separately there would be little objection to the plan. But experience has shown that segregation goes further. It denies the Negro a chance to share in the benefits accruing from a disbursement of taxes; it denies him the benefits of municipal protection for his health and for his property.

The Journal & Guide

The improvement of one street in the colored section was stopped because the funds gave out. While this much needed improvement waits the city now proposes to spend $27,000.00 to improve Norfolk county roads.

3/11, 116.

Norfolk cooks, nurses, butlers, chauffeurs, washwomen and general laborers live in mud and water in winter and dirt and dust in summer, while the people they serve abide in sanitary houses on paved streets, kept sanitary and wholesome by the scheme of common taxation administered by a bias and unjust city government.

Again in the U. S. Congress the question of giving the Filipinos their freedom and allowing them to govern themselves is discussed. The churches are sending missionaries to Africa, South America, and other countries, but in the South the race is being murdered daily; the fourteenth and fifteenth amendments are being disregarded. The race woman is being mistreated and raped; yet this government overlooks these facts.

This is Mr. William Bernard, whom we have engaged to draw political cartoons for us. He is an old-timer who has drawn for most of the great papers in the country; a deep thinker with a facile pen. His cartoons will strike at the heart of current problems of the day, and are one of the greatest attractions any newspaper carries. Mr. Bernard was born in Georgia in 1886. Although still a young man, his cartoons have excited nation wide comment and have been reproduced in most of the leading reviews of the world. We have contracted for Mr. Bernard's services as part of our policy to give our readers nothing but the best.

A NEGRO LYNCHED THIS MORNING BUT WE ARE STILL LOYAL

Many banners were displayed during the recent peace parades that expressed the feelings and convictions of the carriers and the class they represented. The accompanying cut shows one of many such banners carried. The South being the greatest offender it naturally came in for the bulk of the gibe. The sad part of it is, the truth in every instance was told. "Jim Crow Car Must Go; Colored Men Must Have Rights in the South," was another banner that attracted considerable attention. All in all it was an opportunity to ge everybody told just how we felt. The above sign was glaringly displayed in the streets of St. Paul, Minn., and attracted considerable attention. In Chicago St. Louis, New York and several other cities similar signs were exhibited. Reading from left to right in the picture are Mrs. E. S. Barnette, Mrs. Clara B ardy and J. W. Walton.

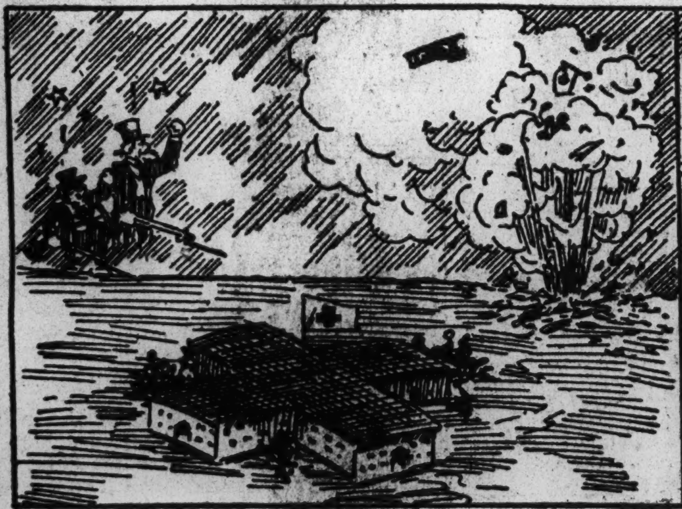
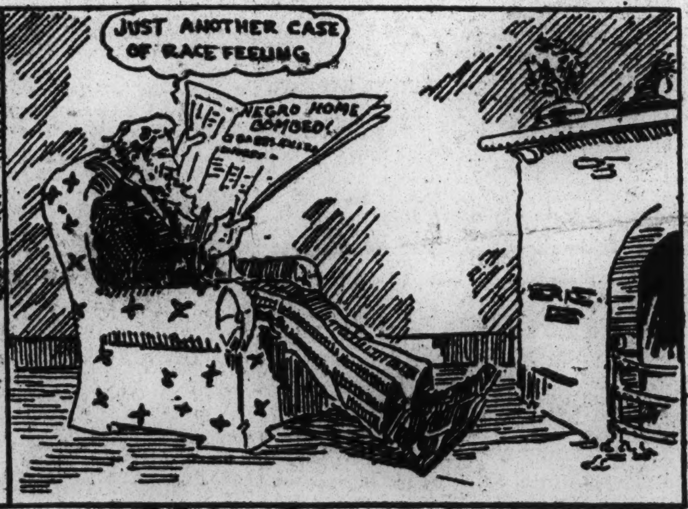
NEGRO LABOR
WARTIME INDUSTRIAL RECORD

But bar the Negro who has proven so essential in American industries.

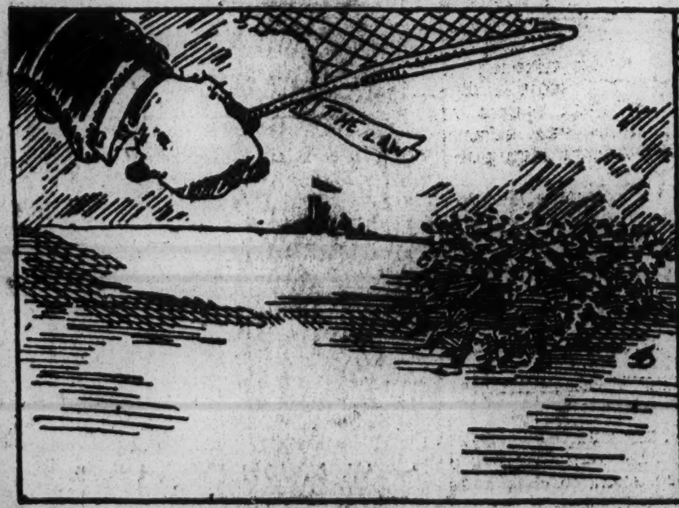


How the entire world was aroused each time a German "ace" bombed an allied hospital,

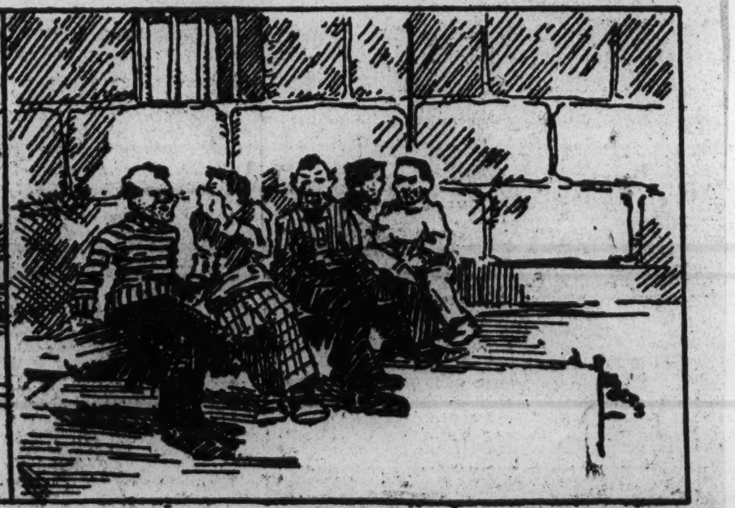


JUST ANOTHER CASE OF RACE FEELING
NEGRO HOME BOMBED

Yet when an American Hun bombs one of our homes it's merely "another case of race prejudice."



How easily the law rounded up over a hundred suspects in the murder of a student in Marquette Park.



And indicted but 21 whites out of the hundreds who took part in the riots which recently disgraced Chicago.
